AQUACONTROL™
Water IoT Platform

SMART WATER IOT PLATFORM WITH CLOUD-BASED APPS

Wireless Water Monitoring & Control for Multifamily and Commercial Properties

AquaControl Smart Water IoT Platform

MONITOR, CONTROL & PROTECT

The system provides leak and burst protection, full submetered billing support, and remote water actuation through its smart connected valve. Aquana captures unit level consumption, uses flow analysis and contact sensors to detect anomalies, and provides automated shut off before serious damage occurs.

DESIGNED FOR MULTIFAMILY AND COMMERCIAL OPERATORS

Protect Against Leaks & Bursts
Don't just detect leaks and bursts, protect against them with Aquana's smart valve.

Boost NOI with Conservation...
Is water included in rent? Aquana provides monitoring systems to lower consumption.

Enable the Smart Apartment
Today's residents are demanding and paying for smart apartment amenities.

...Or Full Submetered Billing
Want to bill back water? Our submetering platform tracks usage and provides asset protection, doubling your functionality.

AquaControl Smart Water IoT Solution
Protect your assets and boost NOI with Aquana

EDGE HARDWARE

GATEWAY ROUTER

MONITOR & CONTROL WITH AQUANA WATER IOT PLATFORM

UTILIZE 3RD PARTY INTEGRATIONS

Powerful Software & Robust Hardware

SOFTWARE
The Aquana Cloud
+ Enterprise friendly property, building, and unit control
+ Real time insight into water systems and usage
+ Advanced algorithms for Leak & Burst detection
+ Configurable rule sets for actuation and notifications
+ APIs integrate with BMS/PMS and billing software

HARDWARE

AquaSense Remote Shutoff Valve

+ Open, Closed, & Reduced flow positions
+ NSF61/Leadfree Brass Body Ball Valve
+ AC or Battery option, 10 year battery life
+ LoRaWAN or LTE communication
+ $\frac{5}{8}$", $\frac{3}{4}$", 1", 1.5", 2", 3", 4", & 6" sizes

ADDITIONAL EDGE HARDWARE:
+ Ultrasonic & Pulse Meters
+ Water Sensor
