AMR Series III Connectors

Geospace Technologies offers a complete line of AMR cables specifically designed and manufactured to meet the rugged requirements for in pit, underwater applications. Geospace’s unique design ensures total moisture sealing for even the toughest underwater applications, yet they are easily re-entered for troubleshooting a transponder or for a meter swap out.
**Features:**

- Special manufacturing process designed to vastly improve cable/connectors reliability for rugged field applications
- Post molded strain relief from cable to connector
- Internal/External totally bonded connector
- TPU extruded cable jacket and molded connector

**Specifications:**

- **Connector Material**: Flexible TPU and Glass Filled TPU
- **Contacts**: Machined 22 AWG Copper Alloy
- **Contact Plating**: 5μ inches gold over 50μ Ni
- **Insulator**: Glass filled thermoplastic
- **Current Rating**: 7.5 amps
- **Voltage Rating**: 300 V AC/RMS 50Hz
- **Insulation Resistance**: 5000 MΩ at 500 VDC
- **Temperature Rating**: -20°C to +80°C, Low temp cable flexibility
- **Cable Jacket**: TPU
- **Pressure Rating**: Submersible to 30 meters
